

Skilled Nursing

at Passavant Community

Sometimes, injuries occur, and you need an extended period to recover before diving back into your daily routine. Similarly, a life-changing ailment may present you with specialized needs that can only be obtained through all-inclusive care.

Skilled nursing is designed to meet these unique circumstances head-on with expert attention. Whether you require temporary or long-term assistance, you will have access to 24-hour support in our nursing center.

When you aren't working with our rehabilitation teams or receiving concentrated services, you can watch a movie in the living area, create artwork for your room or socialize with friends.

You've always lived life to the fullest. Now you can recover with that same enthusiasm and get back to a life you love.
